PROFESSIONAL PROFILE

An experienced and ambitious Full Stack Developer that demonstrates expertise in numerous layers, coupled with a genuine interest in all software technology. Develops holistic solutions to complex problems, pays meticulous attention to detail, and utilizes excellent technical acumen in managing concurrent projects in deadline-driven environments. Communicates effectively at all levels with colleagues, clients and other stakeholders alike. Committed to continuing professional development, passionate about Javascript and Node.js, and interested in enhancing Full Stack Development capabilities.

TECHNICAL EXPERTISE

Javascript	Node.js	React	Angular.js	Highcharts
D3.js	HTML5	MongoDB	CouchDB	Redis
Postgres	Git	iOS	jQuery	Redux
Jasmine	Karma	Protractor	TDD	Travis CI
CSS	HTML	AWS	Heroku	State Machines

HIGHLIGHTS

- Developed multiple financial products using React and Angular.js
- Programmed industrial robots with real-time remote control for Renault
- Worked with Microsoft on games that were ultimately adapted to 12 countries worldwide with 50 million users
- Developed an experimental interactive factory tour using HTML5 for Coca-Cola
- Received the award for Node Knockout in 2015 for my outstanding Cook or Out project.
